Section I.b Admissions

Indicate when students are formally admitted into your initial teacher certification program:

Postgraduate

Does your initial teacher certification program conditionally admit students?

No

Provide a link to your website where additional information about admissions requirements can be found:

<http://www.iusb.edu/~t2tiusb/> <http://bulletins.iu.edu/iusb/2013-2014/schools/school-education-grad/>

Please provide any additional comments about or exceptions to the admissions information provided above:

IU South Bend's alternative programs are Transition to Teaching (T2T) programs, MAT in Special Education and graduate programs designed to prepare candidates for their initial teaching license. The T2T programs comply with the state's requirements. Most classes are graduate level classes. If an applicant's undergraduate cumulative grade point average is below 3.0, then they must have appropriate experience working with children for admission to the program.

The graduate programs have similar admissions requirements except students who have an undergraduate CGPA below 3.0 must take the GRE verbal section and earn a score of at least 450 and take the writing section and earn a score of 3.5. Students applying for graduate initial license must also submit several written statements.

Students admitted to both programs must meet the state's admission standards.

Section I.b Undergraduate Requirements

Are there initial teacher certification programs at the undergraduate level?

No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the Undergraduate level.

2.5

3.072

What is the minimum GPA required for completing the program?

3

What was the median GPA of individuals completing the program in academic year 2015-16

3.867

Please provide any additional comments about the information provided above:

Students admitted into the Transition to Teaching program in secondary education and elementary education must have a cumulative GPA of 2.5 and five years of related teaching experience and a degree in the content area. They must also meet the the School of Education's admission requirements. Students admitted to the MAT program must meet the state's admissions requirements within the first six hours of the program. Initial certification students in graduate certification programs must have a 2.75 GPA or have a high enough GRE score for admission and meet the state's admission requirements. Students may present SAT or ACT scores rather than scores on basic skills tests.

Section I.c Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title III reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

Additional guidance on reporting race and ethnicity data.

Please provide any additional information about or descriptions of the supervised clinical experiences:

Section I.e Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2015-16. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

Section I.f Program Completers

Provide the total number of teacher preparation program completers in each of the following academic years:

2015-16:

2014-15: 9

2013-14: 8

Section II Annual Goals - Mathematics

Each institution of higher education (IHIE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(iii), §206(a))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

Academic year 2015-16

Did your program prepare teachers in mathematics in 2015-16?

No

How many prospective teachers did your program plan to add in mathematics in 2015-16?

Did your program meet the goal for prospective teachers set in mathematics in 2015-16?

Data not reported

Description of strategies used to achieve goal, if applicable:

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Provide any additional comments, exceptions and explanations below:

We only admitted two students to our Transition to Teaching cohort in fall 2015. Neither will be licensed in the field of mathematics.

Academic year 2016-17

Is your program preparing teachers in mathematics in 2016-17?

Yes

How many prospective teachers did your program plan to add in mathematics in 2016-17?

3

Provide any additional comments, exceptions and explanations below:

Our efforts are going into recruiting students for this critical shortage area.

Academic year 2017-18

Will your program prepare teachers in mathematics in 2017-18?

How many prospective teachers does your program plan to add in mathematics in 2017-18?

Provide any additional comments, exceptions and explanations below:

Section II Annual Goals - Science

Each institution of higher education (IHIE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. Section II Assurances

Please certify that your institution is in compliance with the following assurances. (§205(a)(1)(A)(iii), §206(b)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

Yes

Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

Yes

Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

Yes

Prospective general education teachers are prepared to provide instruction to students with disabilities.

Yes

Prospective general education teachers are prepared to provide instruction to limited English proficient students.

Yes

Prospective general education teachers are prepared to provide instruction to students from low-income families.

Yes

Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

No

Coursework required in alternate programs addresses all of the above areas with the exception of preparing teachers to teach in rural schools. The primary alternate program we have is our Transition to Teaching program which is limited in credit hours and field work. We are trying to do a better job addressing teaching in rural schools, but feel we still need to improve this part of our curriculum.

Section III Assessment Pass Rates

No assessment pass rates have been reported.

**Please note that pass rates will be provided to Westat by the state or the testing company or companies (or entities). You do not need to upload or submit any files for this section.

You will be notified via email once pass rates have been uploaded. Please be sure to review the pass rates for accuracy once they are uploaded. Westat expects to receive and upload pass rate files for most programs by mid-April.**

Section III Summary Pass Rates

No summary pass rates have been reported.

**Please note that pass rates will be provided to Westat by the state or the testing company or companies (or entities). You do not need to upload or submit any files for this section.

You will be notified via email once pass rates have been uploaded. Please be sure to review the pass rates for accuracy once they are uploaded. Westat expects to receive and upload pass rate files for most programs by mid-April.**

Section IV Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

If yes, please specify the organization(s) that approved or accredited your program:

State

NCATE

Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HIEA of 2008)?

No

Section V Use of Technology

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- integrate technology effectively into curricula and instruction
Yes
- use technology effectively to collect data to improve teaching and learning
Yes
- use technology effectively to manage data to improve teaching and learning
Yes
- use technology effectively to analyze data to improve teaching and learning
Yes

Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Candidates in our elementary transition to teaching program have technology infused throughout their coursework. During the final clinical experience, students are required to gather assessment data and represent it using technology. We continue to increase our emphasis on managing data with technology since our last report.

Students in our secondary transition to teaching program take an educational technology course at the beginning of their program. Skills learned in this course include both pedagogical tools for teaching and learning and operational tools for navigating technology-based resources necessary for functioning as a student in a university. Students illustrate student achievement data using technology tools and have improved in this area since our last report.

Universal design for learning is reflected in the rubric used to assess artifacts in our alternative teacher education program. Lesson plans and teaching episodes are assessed with an eye for the ability to provide multiple representations of concepts and use multiple methods of assessing student learning.

Section VI Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- teach students with disabilities effectively
Yes
- participate as a member of individualized education program teams
Yes

Yes

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Currently, students in our transition to teaching program do not have a specific course on teaching P - 12 students with limited English proficiency. Rather information is included in a variety of courses. Faculty recognize that at the end of the program, students still have many questions about working with this population of students. We feel we have improved in this area since our last report. Information on differentiating instruction for English Learners is also infused in our graduate initial license programs.

Does your program prepare special education teachers to:

- teach students with disabilities effectively
Yes
- participate as a member of individualized education program teams
Yes
- teach students who are limited English proficient effectively
Yes

Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Currently, students in our graduate programs for initial licensure in secondary education have a specific course on teaching P - 12 students with exceptionalities. In other programs this information is infused in a variety of courses. Faculty recognize that at the end of the program, students still have many questions about working with this population of students, but we feel we continue to improve in this area.

Section VII Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.
